Objective

Aspiring Software Engineer with a strong foundation in Data Structures, Machine Learning, and Web Development, seeking an opportunity to apply technical knowledge in real-world projects. Passionate about building innovative, scalable, and user-friendly applications using modern technologies.

Education

B.Tech in Information Technology

Galgotias College of Engineering and Technology, Greater Noida
CGPA: 8.0/10

Nov 2023 – Jun 2026

Oxford Public School, Shikarpur, B.S.R

12th Grade: 86.6%

Apr 2021 – Jun 2022

10th Grade: 85.4%

Apr 2019 – Mar 2020

Cleared JEE Mains 2022 with 82 percentile

Technical Skills

Programming Languages: Core Java, JavaScript, Python, HTML, CSS

Concepts/Databases: MySQL, MongoDB, Full-Stack Development, Machine Learning

Frameworks/Libraries: Spring Boot, Spring Security, Spring JPA, React.js

Languages: English, Hindi (Native)

Projects

AI-based Traffic Management System

- Developed real-time AI-based traffic monitoring and adaptive signal control system.
- Analyzed live traffic data to optimize signal timing and reduce congestion.
- Utilized Machine Learning, Deep Learning, IoT sensors, and Computer Vision.

Heart Disease Prediction (ML) – Logistic Regression

2025

- Built a simple ML model to predict heart disease using the Framingham dataset.
- Preprocessed data, applied logistic regression, and achieved around 85% accuracy.
- Visualized results using confusion matrix and basic EDA plots.

Web-based Quiz Application

- Built a quiz app using HTML, CSS, and JavaScript with MCQs, timer, scoring, and replay features.
- Implemented dynamic question rendering and interactive UI.

Achievements & Activities

- Attended Data Structure Workshop at CETPA Infotech.
- Visited Delhi Metro Rail Corporation (DMRC) Lab.
- Completed Cloud Jam Arcade 2023 Certification.
- Solved 100+ LeetCode problems in Java.
- NPTEL Certification: DSA using Java.
